

## CHASSIS—R.53, R.54, R.56, R.258

As produced after 1st January, 1961

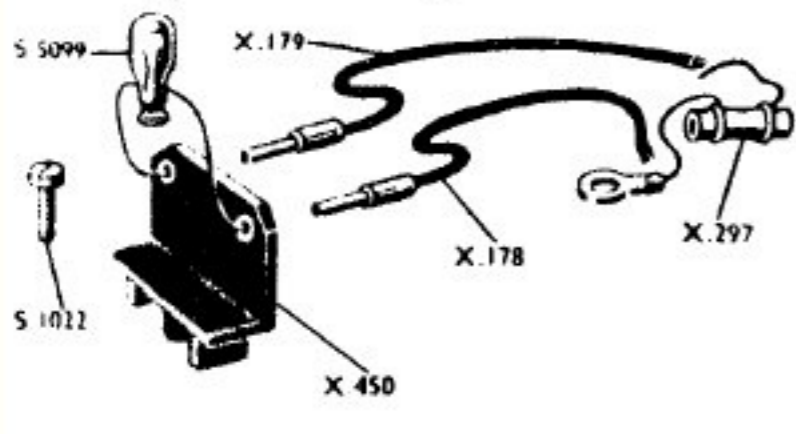

**NOTE:**

Traction Magnet and Steel-tyred Driving Wheels provide this chassis with Tri-ang Railways . . .

**magnadhesion**  
SILVER GREATER GRIP

**Parts for R.54 only**

- |                                                             |                                                                             |                                             |
|-------------------------------------------------------------|-----------------------------------------------------------------------------|---------------------------------------------|
| <b>X.52</b> Crosshead Assembly (L/H)                        | <b>X.443</b> Chassis Assembly (comprising S.2000, S.2021, S.4127, 2—S.5959) | <b>S.1011</b> Standard Screw                |
| <b>X.53</b> Crosshead Assembly (R/H)                        | <b>X.447</b> Collector Assembly with Lead                                   | <b>S.1022</b> Body Securing Screw           |
| <b>X.178</b> Lamp Lead—Black                                | <b>X.448</b> Flanged Unbushed Driving Wheel                                 | <b>S.1077</b> Cylinder Block Securing Screw |
| <b>X.179</b> Lamp Lead—Red                                  | <b>X.449</b> Flanged Bushed Driving Wheel                                   | <b>S.1090</b> Body Securing Screw           |
| <b>X.236</b> Coupling Rod with Pins (L/H)                   | <b>X.450</b> Lamp Bracket                                                   | <b>S.2000</b> Knurled Driving Axle          |
| <b>X.237</b> Coupling Rod with Pins (R/H)                   | <b>X.451</b> Flangeless Bushed Driving Wheel with Crank Pin                 | <b>S.2001</b> Plain Driving Axle            |
| <b>X.244</b> Walschaerts Gear Link Assembly (L/H)           | <b>X.452</b> Cylinder Block with guide rods for R.54 & R.56                 | <b>S.2014</b> Distance Piece                |
| <b>X.245</b> Walschaerts Gear Link Assembly (R/H)           | <b>X.452/G</b> Cylinder Block with guide rods for R.53                      | <b>S.2021</b> Worm Wheel (40 Teeth)         |
| <b>X.297</b> T.V. Suppressor and Tag Washer                 | <b>X.452/R</b> Cylinder Block with guide rods for R.258                     | <b>S.3110</b> 8 BA Washer                   |
| <b>X.298</b> Brush Lead and Clip                            | <b>S.1005</b> Gear Screw (Walschaerts Valve Gear)                           | <b>S.3377</b> Smoke Unit Retaining Spring   |
| <b>X.430</b> Smoke Generator with Lead (without Smoke Pipe) |                                                                             | <b>S.4127</b> Chassis Casting               |
|                                                             |                                                                             | <b>S.5056</b> Motion Bracket                |
|                                                             |                                                                             | <b>S.5065</b> Insulating Bush               |
|                                                             |                                                                             | <b>S.5099</b> Headlamp Bulb                 |
|                                                             |                                                                             | <b>S.5959</b> Traction Magnet Type C        |
|                                                             |                                                                             | <b>S.5994</b> Smoke Pipe                    |

For Motor and Bogies see Servicing Sheets Nos. 1 & 5b respectively.

Modifications are made to Tri-ang Railways models from time to time. If a spare part is required which does not coincide with the illustration, a full description should be given and, if necessary, a sketch or sample should accompany the order.
