

C.287 FORD ESCORT

Most parts also applicable to C.118

View shows car in "upright" position. When reassembling ensure contrate gear (S.9536) is on the correct side and that wires from motor to guide blade are not crossed.

Before reassembling underpan assembly into body ensure bulbs are firmly screwed in position and making good contact with the contact strip (L.3111).

Replacement Hubs (S.9900) supplied will be black only.

To remove body from underpan insert small screwdriver blade at rear end between underpan and body to release number plate and lever body off.

When reassembling underpan assembly into body insert front end first then use screwdriver blade to ease rear of body over number plate.

View showing light bulb leads (X.1404) soldered in position on motor.

Modifications are made to models from time to time. If a spare part is required which does not coincide with the illustration, a full description should be given and, if necessary, a sketch or sample should accompany the order.

List of Parts

Ref. No.	Item
W.2040	Motor with pick-up leads
W.2074	Axle Assembly—Front
W.2075	Axle Assembly—Rear
X.1404	Wire Assembly—Headlight
L.3111	Bulb Contact Strip
L.3112	Bulb Holder—with spade tag

C.289 PORSCHE TURBO 935 Gold

Most parts also applicable to C.119

The Bulb Spacers (L.3132) may vary slightly in thickness. In some cases two on each side may be sufficient.

Before reassembling underpan assembly into body ensure bulbs are firmly screwed in position and making good contact with the Contact Strip (L.3133).

Replacement Hubs (L.5543) supplied will be black only.

To remove body from underpan insert small screwdriver blade at rear end between underpan and body to release number plate and lever body off.

When reassembling underpan assembly into body insert front end first then use screwdriver blade to ease rear of body over number plate.
